Updates: http://wiki.orooboros.at/index.php/MiPNet07.07_O2k-NetworkInvitation

Dear colleague,

It is our honour to invite you to the

O2k-Network

as a Reference Laboratory for O2k High-Resolution FluoRespirometry.

International collaboration, support and development are the keystones of this progressive international network that comprises more than 570 laboratories. Through joining this network, customer support by the Oroboros-Team and our research laboratory in Innsbruck can be complemented by direct user-to-user contacts.

The **O2k-Network** offers:

- Direct information on the methodological details of O2k applications used by other O2k-Network labs.
- The prospect of combining the expertise of leading research laboratories in the field of O2k High-Resolution Fluo-Respirometry.

As an **O2k-Network Reference Laboratory** for O2k High-Resolution Fluo-Respirometry:

- Your lab is listed on the Oroboros website¹ with information on your team and areas of research.
- Your O2k-Publications regarding the Oroboros O2k are listed on your O2k-Network page.
- You receive advance information on O2k-Workshops and specific Oroboros Events.
- We keep you alert on international projects within and beyond the O2k-Network: [MitoEAGLE](#), [K-Regio MitoFit](#)

We are looking forward to your positive response. With your cooperation, the O2k-Network will become an even bigger success!

Erich and the Oroboros-Team, instruments@orooboros.at
